More than safekeeping, **SmartKeeping.**

Some items need to be more than just “put away.” They should be safely and smartly stored in order to protect privacy and provide security, while still allowing convenient access. The iKeyp Pro provides a unique blend of security, technology and simplicity.

Additional Features and Benefits:

- Installs in a convenient location for easy access
- Loud audible and bright visual alerts keep users informed directly from the device
- Backup key for emergency access
- Sealed compartment to help control moisture

The iKeyp App is now available in the App Store and on Google Play.
